

HOW TO – Change the layout configuration of the widgets on the APCIRCUIT® Home Page

APCIRCUIT is the main system of our APCI eCU suite of electronic banking services. The APCIRCUIT Home Page contains widgets, or small boxed areas of information, for easy viewing and access. Users can customize their APCIRCUIT Main Page.

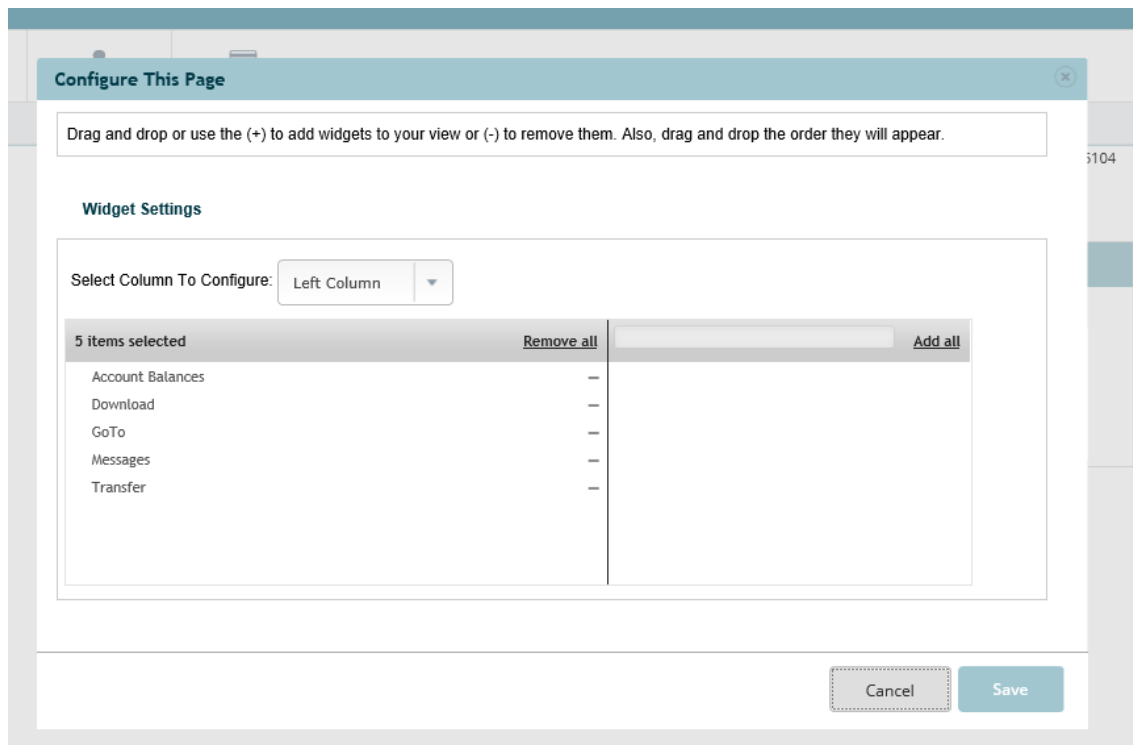

1. Visit apcifcu.com and enter your APCIRCUIT ID and click “Continue.” Follow the prompts to complete the login process.

2. Select the “Configure This Page” link in the top left corner of the APCIRCUIT page:

3. A Widgets Setting pop-up box displaying the current widgets visible within APCIRCUIT will appear:

4. To remove widgets from your view:

- Select the column you would like to configure on the APCIRCUIT Home Page (left, center or right column).
- On the left side of the Widgets Settings Box, click on the widget name to be removed from your view and drag it to the right side of the Widgets Settings box.
- You can also click the (-) symbol after the widget name to remove it from your view.
- To reorder the remaining widgets, drag and drop them into position.

5. To add widgets to your view:

- Select the column you would like to configure on the APCIRCUIT Home Page (left, center or right column).
- On the right side of the Widgets Settings Box, click on the widget name to be added to your view and drag it to the left side of the Widgets Settings box.
- You can also click the (+) symbol after the widget name to add it to your view.
- To reorder the remaining widgets, drag and drop them into position.
